Stop, Look and Listen

My name is ________________.

I love to play with ________________.
Sometimes when I'm playing, people try to talk to me. When somebody talks to me, I need to stop what my hands are doing.
When somebody talks to me, I need to look at their eyes or their mouth.

When somebody talks to me, I need to listen to their words.
Stopping, looking and listening shows the person that I understand them.

Sometimes, they will give me a direction. I need to follow the direction.
Then I can play with toys again after the person talks to me.

I will remember to stop, look and listen when somebody talks to me.
